WASHINGTON TERRITORY

Wreck of a Warehouse

SEATTLE, Oct 4.—Further examination of the wreck of Stone & Burnett's warehouse, which fell into the bay yesterday, proves that the damage is not as great as was at first supposed. It is stated that the loss will not exceed four thousand dollars The wreck of the building formed a raft which supported above water the greater amount of the goods in store, consisting mostly of flour, grain, feed, liquor, kerosene and the like, the greater portion of which has been recovered, but slightly damaged.

Interview of the Japanese Embassy with the President.

WASHINGTON, Oct 4 —At an interview yesterday between the President and the Japanese Envoy, Minister Mori, in response to a remark by the President relative to recent news from Japan, said his own advices up to this time did not sustain the report, but hoped soon to be able to lay full intelligence before the Government The President remarked that the progressionists appeared to be far in advance of public sentiment, which Mori admitted, repeating his views of a day or two ago, that the best policy was to admit progressionists to their share of power, and assimilate the progressives by education Mori further said in his opinion the progressive tendency was irresistible Further conversation was had in reference to the Japanese loan for the construction of the Japanese vessels at New York. The Japanese Legation are said to be in evident alarm at the publicity given the late news upon the internal situation of the Empire

WASHINGTON, Oct. 3 —Early this morning the extensive works in the western part of the city, just put into operation by Dr Filbert Taylor and Russell Fox, who treated wood for pavements, was burned Loss, $50,000.

BY ATLANTIC CABLE.

Railroad Accident Investigation

LONDON, Oct. 3 —At the investigation into the cause of the railroad collision on Wednesday last, the scientific evidence produced warrants the belief that the station master at Kertle bridge is responsible, in a large degree, for the disaster He was committed to prison to await further proceedings.

CALIFORNIA

From San Francisco

SAN FRANCISCO, Oct 4 —Overland passengers: Father Segers and five Sisters of Charity for Victoria.

"Maid" and "Lucy" attracted a large crowd of spectators as they were led out to the Agricultural Park this morning. THE STATE FAIR.

[FROM OUR REGULAR CORRESPONDENT]

FAIR GROUNDS, Oct 4, 1872

The fifth day of the Fair opened up with favorable auspices, a heavy fog and north wind assured all the weather wise of a fine day and sun enough By 10 o'clock the sun was pouring down a flood of those comfortably warm rays that only a mellow October day can see. The campers were all out and the denizens of the Capital swelled the throng until the grounds presented the gayest and most picturesque scene of the season The committees finished up their work to day, to the general satisfaction of exhibitors, ever, I believe, of those who have been defeated.

A prominent feature and one of which on account of its difficulty, I have said but little, is the display of

FINE HORSES

When so many meritorious animals are on exhibition it is dangerous to attempt to specify, but there are a few animals which attracted such marked attention from the people here as to prove their great excellence. Mr. J J. Henderson, of Yamhill, exhibited four Emigrants two yearlings and two two-year olds, which were the observed of all observers The yearlings got away with four premiums as roadsters and horses of all work They are a beautiful span of sorrels 15½ hands or thereabouts, with an elegance of form and a grace of action which captured the eye and heart of every horse lover on the grounds The two year olds got four awards but by a mistake only secured two ribbons. They have the same characteristics as the younger span but add to that the better development of another year's growth. G. G Glenn, of Marion county, had a mare and progeny, a three year old and a two year-old (Norwich stock) all of which took the first premium for thoroughbreds, the dam taking the second sweepstakes Humphrey, of Marion, had a Norwich three year old which took the blue ribbon as roadster and the red for all work and is probably the finest three year old in Oregon. Mrs. Armstrong, of Yamhill, took the first premium for carriage horses on a span of Emigrant's C. A. Wallace, having taken the only first premium on graded horse, a mixture of Timoleon, Eclipse, Sir Charles and Henry, named Ben Holladay, and winner of a blue ribbon as roadster and another as horse of all work. S. G Reed's

CLYDESDALE FILLIES

drew better than some of the shows, and drew so well they got the first premium for draft horses They are a span of dark bays, with great, shaggy legs, and heavy, compact form for which the breed is noted Though not near done growing, they weigh respectively 1,385 and 1,455 pounds on the scales. There are plenty of horses here which weigh that, but they don't go on the scales to prove it. The introduction of this breed of horses marks the era of a needed improvement in Oregon draft horses, and the public already acknowledge Mr Reed's claims as a benefactor While the exhibition of horses here has been a proof of the good work already done by the Agricultural Society, it will be observed that the Emigrant's and Norwich's have been the strength of the show, and those importations may be justly credited to the efforts of the Society. Still another instance might be mentioned, though the horse did not arrive in time for entry. This is the two year old Pathfinder, owned by L. Case, of Polk county, a copy of the old horse, weighing 950 pounds, and as fine a horse to look at as there is on the grounds.

THE PARADE OF CATTLE

which had taken premiums, took place at 1 30 this afternoon, and the thousands who assembled around will go home with better ideas of the points of a fine animal than they ever did before Reed and Stewart, of course, carried off most of the ribbons, though H E Ankeny's short horn bull, which weighs 2,240 pounds, got away with the sweepstakes, besides being the biggest animal on the ground, excepting the elephant in Wilson's circus.

Two hours among the vegetables satisfied me that the report of the committee, which, by the kindness of D. Newsom, Esq, I am able to enclose, is better than anything I can say on the subject. It is as follows

REPORT OF COMMITTEE.

The Committee on Class 13, Garden Vegetables exhibited at the Oregon State Agricultural Fair for 1872, would respectfully represent that they thoroughly examined all the garden products presented to them in the case, and would make certain explanatory remarks pertaining to their awards and observations. The display in quality and sorts of those garden products, was superior to any other at the State Fair heretofore, and we think should be set down to the credit of the producers, and our unrivaled soils and seasons in Oregon. Where so many varieties and sorts of such vegetables are on exhibition, and the size, flavor and quality so superior, it was difficult to determine as to the awards of premiums The results of our awards are on record in the Society's books and need not be enumerated in our report. We would, however, call attention to a few facts in relation to the cultivators of those vegetables in their mode of culture, sorts of land used and their success in production.

Mr G. L. Tooly exhibited several of the mammoth squash, one of which weighed 11[illegible] pounds. His varieties of potatoes were very superior, as were his carrots, parsnips, beets and cabbage. He was awarded seven first premiums and one second premium. His vegetables grew on rich, sandy loam, was moderately cultivated, and some pains taken in the selection of seeds. He could have produced on the same land, by high cultivation and irrigation, much larger specimens And we would state that he arranged and labeled his articles in a superior order, so that we had but little trouble in making the awards in his case.

Mr. Crawford exhibited superior squashes, turnips, melons, beets, and potatoes, and also arranged his articles in fine order for awards He produced these vegetables on rich, natural soil, and observed method in cultivation and maturing the crop

Mr. Adair, near Salem, exhibited very fine tomatoes, melons, onions, brocoli, Hubbard squash, turnip beets, mammoth cabbages, cauliflower and potatoes. His soil is a black loam prairie and fern, subsoil, blue clay, and somewhat manured His articles were much mixed up and had to be arranged for premiums. He obtained all premiums.

Mrs Higby exhibited some large and fine varieties of squash, potatoes, carrots, parsnips, beets, tomatoes, cucumbers, cabbages and onions. The land which she cultivated in those articles was a vegetable loam, blue clay subsoil, laid fair to the sun, and was moderately manured, and well cultivated

Mr. S. R Caplinger exhibited very superior potatoes, onions, squashes, mangel wurtzel beets, rutabagas and carrots His land was rich vegetable loam, clay subsoil, porous and capable of high cultivation and large yield

Mr James Aitkin produced and exhibited a finer lot of potatoes than any which we inspected His turnips and other articles were fine in size and reflect credit upon the producer His soil is rich vegetables loam, clay subsoil, well cultivated, and the yield good He deserves much praise for his success

Various other gentlemen had excellent articles on exhibition in Class 13, and although many of them failed to obtain premiums, yet their articles were excellent, and they should take courage, and continue their laudable efforts to develop the vast capabilities of our soil, climate and seasons, to successfully compete in the production of these vegetables, grains and grasses with any others in North America We would urge upon all producers to note well their experiments in all productions of the soil in our State, the sort of seeds used, the yield in quantity, and the quality of the same, and bring up in writing to our next State Fair a synopsis of such experience, so that all may be mutually benefitted by such information. Some cases came before us of a peculiar character Mr raised this year 75 bushels of sweet potatoes The list of premiums did not include sweet potatoes, and hence we could not award him a regular premium But viewing this case as of vital importance to our State, and fixing a test or fact that sweet potatoes can be successfully raised in our midst to a large amount, and thereby save thousands of dollars to our State annually, which pass away from us to California, we awarded him a premium of five dollars, and would recommend that he receive a diploma in addition thereto Another case of a novel character was presented to us for action The Indians from Grand Round Reservation, in Polk county, brought for exhibition three varieties of potatoes, a lot of tomatoes, a lot of wheat and a lot of oats—all medium size and of fair quality. They failed to enter their articles on the books of the State Fair, and hence were excluded from any regular premiums. But in consideration that they should be encouraged in agricultural pursuits, and animated with a laudable desire to excel in industrial pursuits, we would recommend that they be allowed a premium of five dollars on their grain and ten dollars on the vegetables exhibited here. To the Society this is but a small sum, but to those persons so lately reclaimed from savage, roving life, it will be of importance and much satisfaction to them And in closing this our report, we congratulate the people of Oregon generally, and the members of the State Agricultural Society on the eminent success of the Society after years of toil and much solicitude, in bringing up the affairs of the Society to the present popular and high regard of its worth to an intelligent public

All of which is respectfully submitted.

State Fair Ground, Oct 4, 1872

At 2 o'clock a goodly crowd assembled to see the

GREAT TROT,

for all horses. This was evidently to be the great trot of the season, and the sequel proved it. J. Welch named Black Bird, and J. P. Ladd named Honest Ance. Pools went off like hot cakes, the Bird selling at two to one, with a dozen bidding at a time.

THE FIRST HEAT

seemed to show that the popular judgment was right. Honest Ance (a long old sorrel trotter) took the start and opened up a gap of twenty yards at the half mile, when the black, who trotted like a machine, commenced to close on him, and they turned for the home lapped. The black kept coming ahead steadily, while the sorrel had a knack of skipping with his hind feet, whereby he would gain a few feet every time, but Black Bird passed under the string amid loud cheering, winning the heat by half a length, in 2 57½

Pools sold at three to one, and not much wanted but the second heat changed this The heat was a repetition of the first, only more so, the black being forty yards behind at the half mile, which space he cut down to a length at the judges' stand, Ance winning in 2 55.

The third heat started as usual, the sorrel spirting ahead at the word, but this time the black broke badly at the first turn, and lost forty yards before he could be got down to his work. After that he closed the gap and was even ten feet from the stand, when the driver of the sorrel touched his horse a cut with his whip and sent him under the string winner by a neck, in 2,54½

In the fourth heat the sorrel went off ahead, as usual, but the Bird stuck to him closely till just before turning into the home, Blackbird broke all to pieces, and must have been a hundred feet to the bad. From there out he did the best work ever seen on this track, and made a dead heat in 2 55¼.

In the 5th heat the sorrel, who was suffering badly, broke all to pieces, and although he rallied and pushed his opponent tremendously, Blackbird won in 2 52½. For some reason, the judges announced that the race was drawn, the money to be divided, bets and pools off. The race stood as follows Blackbird, 1, 2, 2, dead, 1; Honest Ance, 2, 1, 1, dead, 2. Much confusion followed, but the judges ordered up the horses for the running race, in which Buckskin is now contending with Trifle, 2 mile heats, for $150.

INCIDENTS.

Our efficient Marshal, W. H. Herren, informs me that his house and that of his brother Noah Herren were entered and robbed yesterday while they were attending the Fair.

A Mrs Hall had her pocket picked of $30 yesterday afternoon on the grounds, and another lady lost $20 in the same way.

Quite a lively trade has been driven in stealing badges in a crowd and retailing them at Salem So I suppose Portland is free from the *genus* hoodlum just now.

A Portland gent had a skirmish with a full grown tiger, and his wounds will cost a thousand dollars to get them healed

An old gentleman is on the grounds now nearly distracted over the loss of a little child he left for a moment this morning, and he can find no tidings about it since.

OREGON.

A Chinese Lodge of Masons has been organized at Oregon City.

Snow is reported six inches deep in the Blue Mountains on the Meacham road.

A couple of cows devoured a lot of eggs belonging to S D. Pope at Oregon City. The *Enterprise* says so.

Work is being done on the Albany and Santiam Canal. It is expected three miles will be completed before winter.

A saloon at Albany has been closed by the Sheriff because the proprietor permitted gambling to be done there. How would that Sheriff get along at Portland?

Two persons, Charles Brown and Alexander Reid, broke jail at Albany on last Thursday and escaped. They were in jail to await their trial for stealing a span of horses and a buggy.

From the Albany *Register* we learn that the residence of Mr. Jason Wheeler, near Albany, was entered by burglars on the 27th ult. during the absence of the family, and robbed of two gold specimens and all the cold victuals in sight. The burglars ransacked the premises thoroughly, evidently in search of money It is supposed the crime was committed by the two persons who had broken jail at Albany.

The *Register* says: A party named Brown was arrested on the Fair grounds, on Saturday of last week, by some of the marshals, charged with gambling. Upon trial he was found guilty of the charge, and fined $112—fine and costs—which he forked over. Another party named Jimmy Wilburn, was arrested the same day, charged with a like offense against the laws, was found guilty and fined $25 and costs

The *State Rights Democrat* says There was on exhibition at the County Fair some fine specimens of stone coal, from the Beaver Coal Mines, north of Lebanon, in the forks of the Santiam. The mines belong to the Beaver Coal Mining Company, of which Governor Ballard is President, and Harrison Johnson and M D. Byland, Directors, The specimens which were on exhibition were pronounced by good judges to be of superior quality.

BRITISH COLUMBIA

Several stockmen of British Columbia are introducing blooded stock into the colony.

Snow has commenced falling at Clinton. The mercury has reached 10 degrees below freezing.

The *Colonist* reports the discovery of silver mines of great richness in the mountains on the mainland

The Dominion Government is going to erect a post-office and custom house at Victoria. Plans have already been made.

The town of Victoria is being supplied with produce to a considerable extent from the agricultural district of the British mainland

The *Colonist* of the 28th says Mr. Richardson's party of geologists are examining the country between Comox and Nanaimo It is quite true that they have discovered immense deposits of iron contiguous to seams of coal

A large lot of bacon shipped to Victoria from Chicago a few months ago, when the price was low has just been shipped back to San Francisco. The rise in value is such as to make it a paying transaction, notwithstanding the double duties it is thus subjected to.

THE TERRITORIES.

A large number of new buildings are in course of construction at Seattle

The steamers on Puget Sound are said to be full of passengers and freight.

The Democratic Territorial Convention at Olympia is reputed to have been a signal failure.

Newaukum, the name of the new railroad town near Claquato, is defined to mean "Gently flowing waters."

The engineers of the N P. R R have located a line from Hodgdon's fifteen miles this side of Olympia to Seattle.

A man named McElroy, while hauling logs on Snohomish river, had his foot so crushed that amputation was necessary.

Ex Judge Hewitt, of Washington Territory, it is said, will run for District Attorney of the 2d District on the Greeley Ticket

The Olympia *Courier* has [illegible] or two or three Greeley hats in that city [illegible] three would look like a good many over here

The *Courier* is responsible for the statement that a man in Vancouver broke a [illegible] egg the other day and found it inhabited by a snake

The road between Olympia and Newaukum is in a bad condition, by reason of the recent rains. Passengers to the Sound [illegible] railroad travel for staging at the latter point

The annual exhibition of the Washington Territory Industrial Association will be held at Olympia, commencing on the 9th inst No pains have been spared, in the preparations to make it a success.

The Olympia *Tribune* says the North Pacific Railroad men only spent a few minutes at Olympia, and that they created an impression that they didn't want to see any of the Puget Sound country except Whidby Island [illegible] to Portland the 6th inst.

The Olympia *Courier* [illegible] lady teachers of the District school at [illegible] were paid their salary in greenbacks, at [illegible] the Democratic Directors, who are firm [illegible] the repudiation heresy. We are told [illegible] please themselves upon their smart [illegible] two ladies out of $15 apiece

FRIDAY MORNING OCTOBER 4 1872

Mr Simpson's Lock Bill Again

Mr Simpson's bill to authorize the State of Oregon to lease and finally to purchase from the Wallamet Falls Canal and Locks Company the canal at Linn City, has elicited more general comment than any other measure yet introduced into the Legislature, and the subject matter of the proposition being no less than the future control of the navigation of the Wallamet river it could scarcely be expected to be in want of friends or enemies Private interests will naturally array themselves on both sides Especially will there be opposition from all those who have a pecuniary interest in having the navigation of the river kept in private hands for speculative or other profitable manipulation

That the interests of the people of the State at large and particularly of the farming community of the Wallamet valley would be greatly promoted by having this thoroughfare open to all who may wish to use it for purposes of transportation, there can not be a question Whenever it shall be possible to carry the produce of the valley from all points along the river to the place of consumption or final shipment, without obstruction and without handling on the way, there will result such an increase of the means of transportation as to bring freights within figures that will not leave the producer helpless, as he is at present Once open the way for all manner of river craft to load at the farms and unload along side the ships that are to carry away the products of the soil and the forest, and the country is freed from all serious oppression in the carrying trade, not for to-day alone, but for the future Make it possible for boats of every description to pass the Wallamet Falls upon payment of the minimum tonnage charges that will defray the expenses of passing them through the canal, and our warehouses and ships will be filled from barges and flat boats, as is the case at San Francisco, unless the freight tariff on the regular transportation lines shall be reduced to figures at which the producer can realize something for his labor.

There has been some very wild figuring on Mr Simpson's proposition One writer puts the amount of freight, which would pass through the canal annually, at 40,000 tons and the number of passengers at 10,000 This at fifty cents a ton for freight, and ten cents each for passengers would give the gross income of the canal at $21,000 per annum. This estimate on freight is probably not more than half the amount that would pass down through the canal in the present condition of the country. The P T Company used to bring down 60,000 tons per annum and the commerce of the country it is well known, has nearly doubled within a few years It may be said this calculation makes no allowance for land transportation, but there is little need of any such allowance so long as freights remain as at present, and besides, if the opening of the canal to the public would bring freights by land down to rates that could be afforded by the producer, it would have accomplished the contemplated good whether the freight be shipped by the river or by rail So the receipts of the canal may probably be estimated at say $40 000 per annum for passengers and down freight The up freight would be much less, and the total amount of receipts would not at present exceed 55,000 per annum This, of course will be vastly augmented as the population and commerce of the country increase. The expenditure proposed by Mr Simpson's bill, of $50,000 per annum for the rental of the works, is to be reduced ten per cent. that amount being made payable into Irreducible School Fund So the actual amount paid by the State would be $45,000 per annum To this must be added the cost of keeping the works in repair, which we are informed by an engineer would probably be $6,000 per annum

Assuming that estimate to be about correct, the annual account with the Canal and Locks would stand, in the event of Mr Simpson's proposition being carried out, about thus

Canal and Locks Dr

To rental	$45 000
To repairs	6 000
Total	$51,000
Cr	
By tolls for freight and passages	$55,000

This leaves a margin of $4 000 in favor of this State, making no allowance for increase of business, which would swell the receipts without adding to the expenditures The bill provides for the payment of the salaries of the Commissioners and employes by the Company"

We have not taken into account the interest to accrue on the $200 000 of 7 per cent bonds This is an outlay that will not be affected by the passage of the bill—that is, it is to be paid whether the bill pass or not

We have obtained our data, except such as are taken from the bill itself from sources that seem most likely to be able to supply reliable information and consider them as nearly correct as the estimates that are commonly made upon such such subjects

We do not wish to be understood as an advocate of the passage of this bill for we are not satisfied that the sum proposed to be paid as the rental value is not unreasonably large, But there can be no question of the policy of securing the Canal and Locks to the State, provided that can be done without the payment of an exorbitant price

Hon S Garfielde Delegate to Congress from Washington Territory, and candidate for re-election arrived in this city yesterday morning. He has already opened the campaign and proposes to keep it up vigorously till the election which will take place on the day of the Presidential election The Republicans of the Territory are warming up as the time of the final struggle approaches Let them forget all their family jars in the presence of the common foe and victory is sure to reward their efforts

A Chicago paper describes an organization in that city which it calls the 'Standing Committee of Citizens A set of men united to gather in exactly the same manner and for the same objects would be called *vigilantes* out here The object of the organization is stated to be that persons guilty of high crimes against society shall be suitably punished notwithstanding any acquittal they may secure through the cumbrous and technical machinery of the law

An Illinois editor determined to keep a succinct record of all the falsehoods started against Grant during the campaign At the end of the first week they came so fast that it required an entire column to mention each day's inventions In spite of the most rigid condensing, Before the second week he had [illegible] room enough in his paper, and abandoned [illegible] enterprise He now records every morning ten of the most atrocious of the latest [illegible]

The Convention between the United States and the German Empire, establishing an international money order system for the transmission of money between the two countries will prove to be a very great convenience This means of safe transmittal of small sums of money upon the easy terms provided will save much trouble and expense to our German citizens There are necessarily a great many transactions between them and their friends in the Fatherland which are not of sufficient magnitude to warrant the express rates or of exchange This class of business will hereafter be transacted through the Postoffice Department of the two Governments, with the same facility as money is now sent from one part of the United States to another and with scarcely more expense It is to be hoped this is but the first of a series of Conventions which shall make it equally convenient to transmit money between our country and all other civilized nations

A HANDSOME COMPLIMENT —Hon S Garfielde Delegate to Congress from Washington Territory reached Vancouver on Tuesday October 1st, and addressed a large and enthusiastic audience at the Metropolis Hotel in that place on the following day On Thursday he spoke at Union Ridge, Clarke county to a large assemblage In the evening he was complimented by a serenade at his hotel by the Twenty first Infantry Band, when, being loudly called upon for a speech, he excused himself from making any extended remarks on account of excessive fatigue but acknowledged in his usual happy manner his deep obligations for the unlooked for compliment The Republicans of Clarke county are united and are confident of rolling up the largest majority next November ever given by a river county

The bill to provide for voting by ballot instead of *viva voce*, passed the Senate by a vote of 21 to 1 This indicates that all parties are in favor of it, and we hope soon to be permitted to chronicle its passage through the House The ballot is the only fair way of voting, because it is the only way in which a man can vote without being subjected to a system of espionage and proscription which to persons situated as many are, amounts to compulsion

OREGON LEGISLATURE

Seventh Biennial Session.

House

EVENING SESSION

SALEM Oct 3 1872.

The House met for the consideration of a bill contracting for the construction of certain sections of the Portland Dalles and Salt Lake Railroad The bill provides a fund, consisting of the unappropriated portion of the 5 per cent of the proceeds of the Public Lands in the State and all other lands which may be granted to the State as swamp or overflowed lands not otherwise disposed of at the end of this session

The bill also grants a right of way, sixty feet in width across all the lands of the State, with the necessary plats for depots, gravel pits &c Under the provisions, bonds not exceeding $16,000 per mile if narrow gauge and $30,000 per mile if wide gauge may be issued and all real or personal property pertaining to the Company may be mortgaged in security of said bonds The Company reserves the right to build upon the wide or narrow gauge plan as they deem expedient They are required to commence work on the portage links within six months, and to complete the road from the Columbia river to Grand Ronde valley, (including a branch to Weston and the portage links) within three years from time of commencement The town of Pendleton must be a point on the line and within four years from commencement the road must be completed to Baker City

The Company reserves the right to make any breach of the conditions specified and allow the same to continue one year *Provided*, That in any such case the Legislature may do any acts necessary to a speedy completion On the portage links the Company guarantees that the cost of transportation shall never exceed 50 per cent of the rates charged on the Columbia river Sept 2, 1872

By the provisions, the State is not liable for any debts or liabilities of the Company and the charter may not be assigned without consent of the Legislature

Col Chapman, in his remarks, called the attention of the House to the necessity of building this road for several reasons. It was necessary that in our own State should be the metropolis of the Northwest and to that end the trade of Washington, Idaho and Oregon must be centered in that city To draw away the trade of these Territories was to detract from the prosperity of the State. There was now a corporation in existence who were striving to centre the whole trade of the Northwest at Puget Sound He referred to the N P R R Already did this Company hold the Columbia river, through the valley of which was the only accessible route from Portland to Puget Sound Their charter gave them the south side of the river upon which to locate their road but they were actually building upon the north side of that river Should they continue their work two years longer nothing could hold them in check A little timely aid given to the Portland Dalles and Salt Lake Railroad, and that road could hold the monopolists at bay and insure the prosperity of our own city The speaker mentioned other advantages arising from the building of these portage links, which should they fall into the into the hands of the N P R R would forever secure the Columbia river to that corporation, and readily answered all objections which were mentioned

Owing to the importance of the measure the House agreed to postpone its passage until to-morrow

A bill was introduced by Corwin to designate the State University and locate the same at Monmouth for the next ten years, and also a bill by Corwin organizing the same, providing a Board of Regents and designating Albany, Linn county, as a permanent location

An invitation was extended to the House to attend a reception to Hon J H Mitchell, and the House adjourned

Senate.

Mr Strahan introduced S B No 48 to change the time of the meeting of the Legislature to the first Monday in December [illegible] Read first time

S B No 37 to locate the State University at Monmouth [illegible] and laid on the table

S B No 39 to amend the act providing for the sale of swamp and overflowed lands in Oregon Read second time referred to the Committee on Public Lands

H B No [illegible] to repeal an act to protect [illegible] Read second time and referred [illegible]

A communication was received from the Governor stating that he had signed H B No 10 to incorporate the town of Roseburg

On motion, the Senate resolved itself into Committee of the Whole, with Strahan in the Chair to consider various bills referred to such committee

S B No 24, relating to the taxation of foreign companies, was considered and several amendments [illegible] opening amendments to the State

S J R No [illegible] considered, several amendments proposed and adopted [illegible] for a special election of State Printer, being [illegible] Committee arose and reported [illegible] Judiciary with certain restrictions R. No 6 be referred to Committee [illegible] moved to amend that the committee re[illegible] Mr Cornelius [illegible]

port back a bill abolishing the office of State Printer and authorizing the authorities to let out the public printing [illegible] The minority report prevailed and the [illegible] as amended was adopted

Mr Bristow asked leave of absence for the committee to examine the Locks until the Senate meets next week He said the committee had desired to examine the Locks [illegible] Leave of absence granted

On motion the Senate adjourned till 10 A M to-morrow

House.

MORNING SESSION

The House met at [illegible] A M and was opened with prayer by Rev A [illegible]

Journal read [illegible]

The Governor sent in a message to the House informing that he had this day signed [illegible]

A petition was received by [illegible] person from Clatsop requesting the [illegible] name [illegible] a matter pertaining to the duties of County Courts [illegible] taken [illegible]

S B No 10 providing for the [illegible] returned back from [illegible] Roads and Highways and was referred to the Committee of the Whole

Mr Collier from the Committee on Education reported back H B No 15 relating to the sale of Agricultural College lands—recommended its amendment by striking out a section referring to reports made by the Treasurer of said College to the Government The committee also recommend the striking out of a passage which provided that the interest arising from moneys received shall be appropriated to the endowment of said College The amendments were adopted and ordered on its final passage to-morrow

A bill to promote immigration was also reported back and its adoption recommended

The Committee on Judiciary reported back S B No 7 (a local bill) and was referred to its third reading immediately on motion of Mr Congle The bill exempted the Umatilla Company from the laws on enclosures and passed without a dissenting vote

The Committee on Elections reported to the House their action in regard to the Clackamas county contested seats The entire controversy turned upon the decision made in relation to a large number of votes cast at Linn City precinct and which were marked rejected by the judges of election on the ground that the persons so voting came into Clackamas county in order to obtain work upon the Canal and Locks and [illegible] so as to entitle them to vote (I copy the words of the report) The report further reads "Mr Fitch who was and is a consistent Democrat and who voted for the contestants says most emphatically that if he had believed the works under construction were public works he himself would have concurred in their rejection Mr Fields protested at the time against the rejection of the votes He seems to have been persuaded into this forcible idea by Capt Isaac Smith who is Superintendent of the Lock works and who was anxious that his men should vote The testimony of Captain Smith shows that he, though a violent partisan and earnestly desiring the return of the contestants did not contend that his men were entitled to a vote if the Locks were public works, in the sense intended by the Legislature He knew they were not and spent nearly an hour in attempting to convince the judges that they were not public works The committee based their decision on an act approved October 1870 entitled An act to prevent frauds in elections

A minority report was also made which stated that at the general election the poll books of Linn City showed that fifty seven votes had been received by each of the candidates and twelve votes for each of the sitting members. Two of the judges, arbitrarily and against the written protest of the third judge rejected forty-eight votes cast for contestants, and in their returns on the back of poll books only counted nine votes In the majority report the whole affair turned upon the admission or rejection of these votes. The minority report held these votes to be legal, and recommended that the seats be given to the contesting members.

On a motion to allow the respective attorneys to plead cases before the House, the ayes and noes were called for The motion was lost by a vote of 20 to 24

The resolution of the majority of the Committee, entitling the sitting members to hold their seats was adopted by a vote of 20 to 15, the ayes and noes being called for in each case.

The majority report embodied an account of expenses incurred in the summoning of witnesses, and the Committee recommended the payment of the mileage to the contestants as has been usual heretofore

A committee was appointed to report a bill for the same

Mr Patton wished to suggest the propriety of allowing contestants to foot their own bills in the future He did not think that the State ought to pay the expenses incurred in such cases

The select committee to whom had been referred H B No 42 regarding the exclusion of the right of suffrage to females recommended the passage of the same with supplementary section repealing all acts in conflict to the bill

Mr Patton offered a minority report by adding a provision on all popular votes touching all questions licensing the sale of intoxicating liquors

Mr Cross also offered a minority report in which he recommended that no change be made to the laws now existing

The House refused to adopt the supplementary section and as Mr Patton's report came up Mr Corwin moved to postpone any further consider of the question at issue to Saturday

The House wished to dispose of the bill as quickly as possible and would not entertain the motion Therefore Mr Patton's amendment was rejected

A motion of Mr Clow to postpone indefinitely was carried and the fate of the bill sealed

The committee to whom was referred a bill to appoint a State Geologist recommended the passage of the same after amending by appropriating $1 000 for publication of the reports The amendment met the approval of the House and the bill was ordered to a final passage to-morrow

Mr Clow introduced a bill locating the State University at Christian College Monmouth for the next ten years Mr Clow also introduced a bill providing for the election of precinct assessors

Mr Burbank introduced a bill to protect stockholders in corporations.

Mr Congle introduced a bill amending the General Laws relative to procedure in law

The bill to amend the Charter of Portland, on motion of Mr Congle was read a second time and the bill referred to the delegation from Multnomah county

A bill providing for the purchase of 100 copies of Deady's Code at $6 per copy was read a second time and went to the Committee on Ways and Means

Willoughby's female suffrage bill on its second reading was indefinitely postponed on motion of Mr Gingles

A bill defining the limits of Curry county referred to Committee on Counties

A bill providing for the construction of an Insane Asylum on the second reading was ordered for final disposition to-morrow

A bill defining a lawful fence, on second reading went to Committee on Roads and Highways

A bill relating to bridges on public roads, on second reading went to Committee on Roads and Highways

The hour having arrived which was set for the consideration of the Portland Dalles and Salt Lake Railroad bill it was read third time

To the question, shall the bill pass Mr Clow moved to refer to the Committee of the Whole

Mr, Eagle amended to refer back to select committee with instructions to strike out all but the second section and further stated that he wished only to give the company the right of way The ayes and noes were called for with the following result Ayes 10, noes 36

Mr Burbank wanted to amend by appropriating $100 000 out of the Swamp Land Fund and no more The ayes and noes were called, with the following result Ayes 7 noes 7

The ayes and noes were also called on Clow's motion to refer to Committee of the Whole—ayes 15 noes 31

The vote was then polled on the passage of the bill which was passed by a vote of 28 to 18 Voting aye were Messrs Andrews Biles Barin Collier Corwin Cooper Cranor Congle Caples Curran, Grant Hirsch, Hedges [illegible] LaDow Mallock Martin Onstein Powers Patton Riley Stephenson Scott, Thornbury Wright West Washburn White Mr Speaker Voting no were Messrs Allen Bushey Burbank Clow Crooks Dorst Downing Eagle, Gingles Harrison, Johnson Langell Mason Riddle Shelton Walker Walden, Willoughby

So the bill passed

Mr Patton offered a resolution revoking the action of the House in ordering 1 000 copies of the Governor's message if the copies had not already been printed The resolution was adopted

The House then adjourned until 7 A M

House.

EVENING SESSION

House met this evening pursuant to adjournment

H B No 24 an act regulating and defining lawful fences in Wasco and Umatilla counties and providing against trespass having passed two readings came before the House for disposition and passed unanimously

Mr Langell moved to go into Committee of the Whole for the consideration of the bill to construct a wagon road through Jackson, Grant and Baker counties The road [illegible] at Ashland passes through Linkville Goose Lake valley to Camp McDermott Nevada Commissioners are appointed who shall have the usual authority [illegible] superintend the construction of the road The bill appropriates $25 000

Mr Mason moved to consider by sections Carried

Mr Mallory moved to strike out $25 000 and insert $15 000

Mr Mason said that $25 000 was none too much He opposed cutting down the appropriation

Mr Langell in answer to question from Mr Caples said the road would open all southeastern Oregon The appropriation was not extravagant especially when compared with giving away all the lands owned by the State

Mr Caples was willing to appropriate $15 000 and petition Congress for sufficient to complete road

Mr Collier would like to know whether or not the road would be blockaded with snow all the year He had experienced a snow storm in August right on the line of the road The road would be of great value to southeast'n Oregon and he thought the appropriation moderate

Mr Burbank held that the Legislature ought not to be so prodigal with its funds

The amendment was adopted

Mr Mallory moved to strike out [illegible] out of funds arising from sale of public lands We could not give away all our school lands

Mr Langell replied that these were not school lands but given to the State for internal improvement

The amendment did not meet the approval of the Committee

Mr Mallory moved to amend further by inserting a clause appropriating lands lying within the counties through which the road passes

Mr Caples thought the House ought not when appropriating one were made to hedge them with such conditions that they would be unavailable

Mr Mallory—The gentleman from Multnomah mistakes my motives I do not wish to surround it with such conditions as will render the appropriation unavailable Amendment rejected

Mr Burbank amended by striking out the names of Commissioners as reported in the bill and authorize the County Court to appoint a Board of Commissioners Committee adopted the amendment

Committee resolved to rise report progress and ask leave to sit again

The committee to whom H B No [illegible] referring to the lease and subsequent purchase of the Canal and Locks [illegible] recommended the passage of the same after amending by substituting $40 000 for $50 000 wherever it occurred to the bill, also to substitute five years instead of ten

House adjourned

POLITICAL NOTES

Col J W Forney is stumping Ohio for Grant and Wilson

The Democratic papers of Tennessee are still railing at Andrew Johnson for hanging Mrs Surratt

Senator Sherman is a model man A relative of his was recently a defaulter to the amount of $1 000. The Senator upon being asked by telegraph what to do about it answers "The Government ought to prosecute him"

Rev, Dr Scars the eloquent Unitarian writer says at the close of a recent article in the *Religious Magazine* "Booth's bullet made us clasp Lincoln more closely to our hearts and forget his foibles Sumner's ruthless attack will make the country receive Grant into a warmer gratitude, and be more jealous than ever of his fame".

Indiana is having the most animated campaign that has ever been witnessed in that State Besides Brown and Schurz and the other regular stock actors of the Greeley troupe Hendricks has appointments for every day till the election The Republicans are equally active with Bingham, Ben Butler Henry Wilson and others, on the rostrum

Speaking of a Greeley and Brown "rally" in Minnesota the St Paul *Press* says the people of that region don't "enthuse" very extensively over the Chappaqua Philosopher Great efforts were made to get out a crowd to the meeting, but only 125 by actual count, entered the hall The Greeley wave is as dead sea water throughout the entire district A large number of prominent Democrats have declared themselves for Grant

The Yreka *Journal* of the 10th says the sale to the London Company of the Yreka Creek mining property has been completed It adds "The Company's agent will probably be here in Octo bur with working capital to commence operations This purchase will immediately place a large amount of money in circulation, besides at least $200 000 additional, which the Company will expend in building tunnels, flumes, etc to open claims during the coming year"

SATURDAY MORNING, OCTOBER 5, 1872.

CITY.

UNDER BONDS.—Harry Humphrey, who was arrested by Constable Daly, Thursday evening, on the charge of assaulting a Mrs. B——, with the intent to commit a rape, was examined yesterday morning before Justice Davis. From the evidence of the young lady, it appears that she became acquainted with Humphrey about three weeks since, while stopping at the Patton House. About two weeks ago, she left the Patton House and went to live at the house of her brother-in-law, in the upper portion of the city. Saturday evening last, about half past 8 o'clock, Humphrey called at the residence where Mrs. B—— was temporarily staying. At the time he called, no one was at home except the lady and her little niece. Humphrey knocked at the door and was admitted by Mrs. B——, who suspected nothing wrong, and on invitation took a seat. He conversed some time and at last made dishonorable and insulting proposals. Mrs. B—— indignantly repelled the proposition, and bade him leave the house instantly. He refused to do so, and seizing hold of the lady around the waist endeavored by violence to compel her to accede to his demands. A fierce struggle followed, in which the lady's dress was torn off at the waist, and other indignities committed on her person. She at length tore loose from his lustful embrace, and uttered several screams for assistance. Humphrey became alarmed lest some one would discover him, and leaped out at an open window and effected his escape. When her sister and brother-in-law returned the outraged lady made complaint. A warrant, however, was not issued for the arrest of Humphrey until Thursday. After an examination of the case Justice Davis held the defendant to appear before the Grand Jury at the November term of the Circuit Court in the sum of $500. Not being able to give the required bonds Humphrey was committed to jail.

THE GAS HOLDER.—Yesterday we paid a visit to the new gas tank, in process of construction at the corner of F and Sixth streets. Some dozen or fifteen men are constantly employed in various ways about this improvement. The masonry work will be completed within ten days, if the weather proves favorable. After the walls are finished, the bottom will be laid. This portion of the tank will be constructed of concrete, placed down in such a substantial manner as to prove impervious to the water. The height of the walls are 22 feet in the clear, 4 feet thick at the bottom, and tapering gradually as they rise. The walls are built of the hardest and best brick procurable. The mortar is composed of equal proportions of sand and cement, which, when thoroughly hardened by exposure, will resist all tendency of the water to soak as if solid rock. In diameter the tank is 100 feet from the inside of the walls. Over half a million brick will be used in the construction when finished. The cost of the holder, when ready to receive the gas, will be between [illegible] and $30,000. In order to supply the constantly augmenting demand for light, and to keep the new as well as the old tank full, the gas company find it necessary to materially enlarge their present building and increase the gas generating facilities. This will be done when the new tank is finished. Gas will be generated at the old building, and driven into the new holder, from which it will be distributed through the city by [illegible] pipes.

GRAND RECEPTION.—A grand reception will be tendered to Hon. John H. Mitchell, by the citizens of Portland, at the Court House this evening at 8 o'clock. A congratulatory address will be delivered by Hon. H. W. Scott, in behalf of the citizens of Oregon, to which Mr. Mitchell will appropriately respond. Addresses will be delivered in the course of the evening by the following honorable gentlemen: Hon. A. B. Meacham, Gov. [illegible], Hon. Rufus Mallory, Hon. J. F. Caples, Hon. W. D. Hare, and other prominent speakers. At 7:30 o'clock P. M., the Grand Arch will be illuminated, which as a pyrotechnic display will be the finest ever produced in the State. Mayor Wasserman will be President of the evening. Music will be furnished by the East Portland Band. The public generally and the ladies especially are invited to attend.

DREDGER HULL.—The contract for the construction of the hull for the new dredger, to be built by the Government under the superintendence of Major Robert, has been awarded Mr. T. J. Bulger, of this city. The sum allowed for such work was $5,149. Work on the hull will be commenced as soon as practicable, and prosecuted vigorously to completion. In addition to the hull, two large scows will also be constructed, which are to be stationed on each side of the dredger to convey the sand away as rapidly as the dredger "scoops" it up. These scows will cost in the vicinity of $5,000. The contract for their construction has not been let. The estimated cost of the new dreder, with all the necessary machinery, etc., is $56,000—the amount of the appropriation for that purpose.

RETURNED.—Major Robert and Captain West returned a few days ago to this city, from an inspecting tour to Port Orford. As has been before stated, the object of the visit was to officially examine the character of the port, with a view to create it a harbor of refuge. The Major made a preliminary inspection of the port and then returned. The result of the examination will probably be embodied in a favorable report. Material, necessary for the construction of a breakwater, can be obtained in abundance, and close at hand. From two and a half to three millions of dollars will probably suffice to make that port a harbor of refuge; and it will be the cheapest of all those points along the coast, hitherto spoken of, by reason of the proximity of excellent stone.

KEEPING PACE.—One substantial indication of the prosperity of Portland, and of the good judgment and taste of our citizens, is seen in the fact that although numerous public and business houses are in process of construction, private residences are keeping pace in a proportionable rate. To the already numerous, neat, tasty and elegant residences, another is to be added. The vicinity of Madison street, between East Park and Seventh street is soon to be ornamented with another fine residence. Mr. E. J. Northrup, a few days ago, let a contract to erect a dwelling for him at that place, to cost $10,000, and which will be put up this season. Mr. Jordan is the architect and Bradan & Rinnie the builders.

MOVING IN.—Yesterday was a lively day in and about the market. Several firms were removing stock to their respective stalls, and getting ready for the grand opening. A number of carpenters, painters, etc., were working with might and main, to get the stalls in order to receive occupants by to-day. Several stalls have been leased, but will not be occupied for some days yet. The formal opening will take place this evening, until which time we defer a further and more extended notice.

LARGE STABLE.—The Oregon Transfer Company are building a very large stable for their own use, on G street, between Fifth and Sixth. The dimensions of the building are 50x200, two stories high. It is to be built of wood, and will be completed within four weeks. Its ample dimensions will afford sufficient room for all the horses, hacks, drays, etc., used by the company.

WING DAMS.—Mr. Packard is now engaged in superintending the construction of several wing dams along the channel of the upper Wallamet at the various shoals, where such obstructions impede seriously the free and uninterrupted navigation of the river. Major Robert is absent to make an official inspection of the work as reported by Mr. Packard.

AMOUNT OF CONTRACT.—The Willamet Iron Works were awarded a few days ago, the contract for the manufacture of the boiler and engines to be used on board the new government dredger, soon to be constructed. The bid of that Company being the lowest—$6,750—the contract was awarded them.

MARRIAGES.—This a good month for hymen, if we may judge from rumors floating about. It is asserted by dame gossip that at least fifteen marriages are on the tapis and that several of them are to be among the ton. We like this symptom, and hope it will be continued, as we need a larger population.

COMPLETED.—The Oswego canal, by which the waters of Tualatin river and those of Oswego Lake are united, has at last been completed, and boats will soon be able to pass through without difficulty. The work was commenced some time during May of the present year.

INCREASED.—It was ordered at the last meeting of the County Court that the salary of the Superintendent of Public Schools be increased to fifty dollars a month to date from July 1st, and that the amount due him from such increase be paid on his presentation.

BIDS TO OPEN.—Bids will be opened next Friday, 11th inst., for proposals to make improvements along the channel of the upper Columbia, at several designated points, in accordance with a recent appropriation made by Congress for that purpose.

DOWN THE RIVER.—Both the barks *Navigator* and *Electra* are down the river. Each of these vessels will receive about 200 tons more of wheat to complete their respective cargoes, after which they will proceed to sea without delay.

BARK ALMATIA.—The bark *Almatia* was reported in the river by the officers of the *Dixie Thompson*. She is due from San Francisco with an assorted cargo, and may be expected to arrive at any time.

BOARD OF DELEGATES.—There will be a meeting of the members of the Board of Delegates of the Fire Department, at the Police Court room this evening. A full Board is requested.

STONE.—The steamer *California*, due at this port from Victoria, will bring 300 tons of stone for the new Custom House, and also a large quantity of water pipes for East Portland.

HUNTERS.—A party of five well known nimrods will leave the city this morning for a week's hunt on Lewis river, Washington Territory. Fish, flesh and fowl are expected to suffer.

ON THE WAY.—In addition to the boiler and engines to be employed on board the new dredger, about $12,500 worth of machinery will soon be on way from New York to this port.

FOR VICTORIA.—The brig *Robert Cowan* was towed down the river Thursday. She will proceed to Victoria and discharge the remainder of her cargo, destined for that port.

RESUMED.—The dredger having completed the necessary amount of work at the mouth of the Wallamet river, a few days since, has resumed work at Swan Island.

AT WORK.—The Government snag puller is now engaged in tearing out logs and other obstructions on the upper Wallamet, at the mouth of Gervais slough.

FROM SAN FRANCISCO.—The steamer *John L. Stephens* will sail from San Francisco for Portland this morning, bringing passengers and freight.

THE OLYMPIA.—The side wheel steamer *Olympia* will sail for San Francisco this morning at 8 o'clock with passengers and freight.

FOR SITKA.—The steamer *Geo. S. Wright* will sail for Sitka and way ports this evening, carrying passengers and freight.

PERSONAL.

Commander Fitzhugh, of the United States Navy, departs for Sitka on the steamer *George S. Wright*.

Colonel E. E. Rice, late United States Consul at Yokohama, Japan, is in the city en route for Puget Sound.

Professor O. S. Frambes, for several years connected with the Portland Academy, has recently been appointed to a professorship in the University of the Pacific.

Rev. Henry C. Benson, for several years editor of the *Pacific Christian Advocate*, has been reelected by the California Conference editor of the *C. C. Advocate*, published in San Francisco.

Rev. Joseph H. Wythe, formerly pastor of the Taylor street M. E. Church in this city, has been assigned the pastorate of the Powell street Church in San Francisco by the late session of the M. E. Conference.

SPECIAL CHURCH NOTICES.

The regular Sunday evening service is omitted at the Unitarian Church to-morrow. Afternoon service will be held at 4 o'clock.

English service will be held every Sunday at 3 o'clock P. M. at the Scandinavian Evangelical Lutheran Church in East Portland. Service in the Norwegian language will be postponed until further notice. Pastor—Rev. Dr. E. A. Fridrichsen.

NO GENTLEMAN knowingly trusts an unskillful tailor with the "get up" of his clothes, but seeks those who are reliable in every way. In fashionableness of cut, and neatness and durability of make-up, it is well known that the work of Fishel & Roberts, corner of Washington and First streets, is unsurpassed. They are in receipt of a choice selection of fall goods, and it is therefore recommended to those wishing the best to call. Boys' clothes a specialty.

THEY HAVE 'EM.—If you have made up your mind to array yourself in a new outfit, and are desirous of getting the latest styles, best goods and lowest prices, you cannot do better than call and select from the fresh importations which Mr. Scharf has been buying in San Francisco for the house of J. O'Neil & Co., No. 95 First street. They have, without doubt, the finest goods ever offered to the public. Gaze in the windows; go further, look inside. Comment is unnecessary.

ALL IN ONE.—Quinn, the indefatigable, has made a new move. The First street stand has been closed and his up-town customers will find him at his old stand, where many improvements have been made. If you want Game, Fish, or anything that is good, go to Quinn's Union Fish Market, Washington street, between First and Second.

WILD CHERRY PECTORAL.—The memory of Dr. Wistar is embalmed in the hearts of thousands whom his BALSAM OF WILD CHERRY has cured of coughs, colds, consumption, or some other form of pulmonary disease. It is now over forty years since this preparation was brought before the public, and yet the demand for it is constantly increasing.

DYSPEPSIA DESTROYS THE TEETH—Unless its effects are counteracted by that pure vegetable tonic and antiseptic SOZODONT. No bodily disease can impair them if this antidote to all corrosive elements that act upon the enamel is regularly applied. 61

Natural Decay—Protect the System.

The human body is a machine, and therefore cannot endure forever; but, like a watch or sewing machine, it will last much longer if properly regulated and duly repaired, than if no pains were taken to keep it in order. The great object of every one who desires a long and healthy life should be to put his body in a condition to resist the life threatening influences by which we are all more or less surrounded; and no invigorant and corrective at present known so effectively answers this purpose as the vitalizing elixir which under the unpretending name of Hostetter's Stomach Bitters, has been for more than twenty years the standard tonic of America. In crowded cities, where the atmosphere is contaminated with the effluvia inseparable from large populations; in marshy regions, where the soggy soil reeks with miasma; on the prairies, and in the forests, where every fall the air is tainted with exhalations from rotting weeds and grasses, or decomposing leaves—in short, in every locality where malaria exists, this powerful vegetable antidote is urgently needed. Fever and ague, billious fevers, dysentery, congestion of the liver, jaundice, rheumatism, and all diseases which are generated by infected air, impure water, or sudden changes of temperature, may be averted by strengthening and regulating the system in advance with Hostetter's Bitters. Autumn is always a season of peril, especially to weak, susceptible organizations. Even the more vigorous are apt to be in some measure depressed by the humid atmosphere, loaded with deleterious gases produced by vegetable decay. The fall is a period of the year when the renovation and regulation of the living machine is peculiarly important, and the Bitters should therefore be taken daily at this critical season.

PLANTATION BITTERS!
S. T.—1860—X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

MEXICAN MUSTANG LINIMENT;
FOR MAN AND BEAST.

Probably few articles have ever had so extensive Sale, while none have been more universally beneficial than the MEXICAN MUSTANG LINIMENT. Children, Adults, Horses and Domestic Animals, are always liable to accident, and it is safe to say, that no family can pass a single season without some kind of an emollient being necessary. It becomes a matter of importance then to secure the best.

Over three hundred livery stables in the city of New York alone are using the MEXICAN MUSTANG LINIMENT, in all of which it gives unusual satisfaction.

CAUTION.—The genuine is wrapped in a fine *Steel Plate* engraving with "*G. W. Westbrook, Chemist,*" and "*Trade Mark, MEXICAN MUSTANG LINIMENT,*" engraved across the face of each wrapper. The whole bears the proprietor's private United States Revenue Stamp, and not a common stamp, as used by druggists.

The Reform Party.

HORACE GREELEY—Convicted of favoring the pensioning of rebel soldiers, of a plot to restore the Southern rebels to power, and voted for by the South in the hope of forcing the payment of the Southern war claims.

B. GRATZ BROWN—Governor of Missouri, under whose administration the State expenses have largely increased, and murder, robbery arson and not unrebuked in certain portions of the State. His withdrawal from the ticket is demanded by the Springfield *Republican*, b... he can carry more whisky and less votes than any other man in the country.

REUBEN E. FENTON—Biography by the New York *Times*—"Started in life as an honest clerk; has been intimately associated with Fisk and Gould, is known to have extorted large sums of money from the Central Railroad, connected with every dirty job in New York politics ever since he has been in public life; repeatedly charged with taking bribes for signing bills while Governor, one of the most reckless and unscrupulous 'politicians' in the entire Union."

CARL SCHURZ—Convicted of having swindled and ruined several of his countrymen in a land transaction at Watertown, Wisconsin, of keeping five relatives in the office of Collector of Revenue at Chicago at one time, and of charging $200 to $250 per speech for his advocacy.

LYMAN TRUMBULL—Took $10,000 from the United States Treasury in violation of law for no service, or else was bribed as United States Senator by that amount; secured the appointment of his brother as attorney of the Illinois Central Railroad by his services in pushing a bill for $2,000,000 through Congress in favor of that corporation; secured the removal of a one-armed soldier from the Springfield Pension Office to make room for a brother-in-law, Dr. Jayne.

JAMES R. DOOLITTLE—Convicted of offering to barter his influence as United States Senator to Thomas J. Conatty for a share of the proceeds of an illicit cotton speculation.

THOMAS A. HENDRICKS—Secured the appointment of a convicted thief to an important office in the New York Custom House, procured the pardon of a noted revenue swindler of Vincennes, Indiana, from President Johnson, thereby defrauding the Government out of thousands of dollars; kept seven relatives in office while United States Senator; offered to pay $2 000 out of his own pocket to stop a suit against the Indianapolis Water Works Company, in which some of his peculiar tricks as a stockholder and attorney would be developed; while Commissioner of the General Land Office, charged with having by an agent located a large amount of land for his personal benefit before it was surveyed.

CHARLES R. BUCKALEW—The friend and confident of Dr. Blackburn, who sent infected clothing into the North from Canada and who shipped a box of clothing to President Lincoln. He is now the "Reform" candidate for Governor of Pennsylvania.

AUSTIN BLAIR—Ex-Governor of Michigan; defeated for the United States Senate by Hon T. W. Ferry; turned his attention to "Reform," particularly the Post Office department, on account of his son being discharged from the service for neglect of duty, and other improper conduct. Branded at Jackson, Michigan, by General Cresswell, as a "liar and slanderer."

JOHN M. PALMER—Ran away from before Atlanta while a general in the Army; intrigued for the Republican nomination for Governor of Illinois, declaring that Grant would carry the State by 80,000 majority, and that he would stump it for him against Mr. Trumbull.

JOHN F. FARNSWORTH—Received $1,500 from the agent of the Pittsburg, Fort Wayne and Chicago railroad to secure the transportation of his regiment east over that road; was a candidate for the Republican Congressional nomination at Elgin, and defeated; asserted less than a week before the convention met that he was earnestly for the re-election of General Grant.

N. P. BANKS—Author of the Red River expedition, and the great friend of the speculators in cotton.—*Inter-Ocean.*

An Accomplished Scoundrel.

The St Paul *Press* is entitled to credit for the following, which is neat, if not gaudy.

They have an exceedingly neat and attractive excitement down in East Tennessee. Not long ago a man named Thomas G. Boyd, respectably connected, was indicted in the U. S. District Court for some criminal malfeasance in connection with pensions. Thereupon Mr. Boyd, with a magnificent idea of his own personal influence, and with a poor opinion of Grant's chances of success without his aid, wrote to the president, proposing to turn Republican and to canvass the State in that interest if the suits against him were dismissed. Failing to receive an answer to this very fair proposition, Boyd concluded to try the assassination dodge, as the only feasible way of getting out of his difficulties. He went to the Mountains, and in a few days his companions came back, with a blood-curdling story of how their camp had been attacked by masked men, who fired on Boyd and killed him. A party was organized, and on going to the scene of the tragedy they found that the assassins had not only killed poor Boyd, but burned his body. A few charred bones and some fragments of clothing were all that was left of him. These were collected and taken back to Knoxville, where an excellent funeral was held. People forgot all about Boyd's rascality and only remembered his good points. But suspicions were aroused, and an investigation was held, which has proved that the bones found in the mountains were not those of Boyd, but those of a negro named Sam Bowles, who had died and was buried a few days before Boyd's reported assassination in the mountains. An examination of the grave of Bowles proved the coffin to be empty, and it is evident the body had been carried to the mountains and there burnt. Aside from the imposture, there is a still more horrible suspicion afloat. The negro Bowles had been sick, but was getting well rapidly, when he had a relapse, and died suddenly, complaining of a terrible burning in his stomach. It is now believed that Boyd poisoned the negro in order to procure the prime requisite of a funeral, a corpse. If these suspicions prove well founded Boyd will have attained the object of his endeavors most admirably. He will have escaped prosecution and punishment for his pension agency swindles, but at the expense, perhaps, of his neck.

WHAT IS MR. GREELEY?—Much zeal is displayed by the Democratic and Liberal press, in attempting to prove to foreigners that Henry Wilson, the Republican candidate for Vice President, was connected with the Know-Nothing party in 1854-5.

It would cost half the trouble to show conclusively to the Democrats that Horace Greeley, the Democratic candidate for President, has, all his life, been a Republican, to show to the conservatives that he has always been a Radical; to the pro-slavery man that he was an ardent abolitionist; to the native Southerner that he cried, "On to Richmond;" to the Union man he said "Go in peace, wayward sisters;" to the colored people that he bailed Jefferson Davis, to the old-school man that he was a zealous Fourierite, to the orthodox Christian that he is a Universalist, to the woman suffragist that he despises woman's claims, and maliciously classes suffrage with free love; to the labor reformer that his only idea or principle of labor reform is embodied in his advice, "Go west;" to the agriculturist ... farming would ruin a farmer ... gether in exact... business man that his the same objects wo... bankrupt the nation; here. Disgusted with the Coalition.

Jacob C. Hoffman was President of the German "Liberal" Republican organization of the Twelfth Assembly District of New York. He is not the president of that organization now, for reasons which his letter to the members fully explains.

To the Members of the German Liberal Republican Greeley Brown Campaign Club of the Twelfth Assembly District

GENTLEMEN: The late actions of the Liberal Republican party not being in harmony with my Republican principles, I hereby tender you my resignation as President of the German Liberal Republican Greeley-Brown Campaign Club of the Twelfth Assembly District, with the request that it be accepted, as I am unwilling to have any further connection with the Liberal Republican party. At the same time, I deem it my duty to give the reasons which compel me to take this step. As you all are aware, I accepted the position as your presiding officer only after mature reflection, and under the firm belief that the Liberal Republican party would sincerely labor for a reform in the administration of the National Government, and that the election of Greeley as President would be beneficial to the country.

Assurances were freely made that the campaign should be carried on on an honest Republican basis. How these assurances were kept can best be seen by the bargains made when honesty and principle alike were sacrificed. Nominations were made and compromises entered into which every honest and fair-minded man must repel with contempt. It will be apparent to every intelligent citizen that this coalition is unable to carry out the many promised reforms in the administration of the National Government. The union of so-called Liberal Republicans for the purpose of satisfying the ambition of malcontents on the one side, and the placing in power the convicted Tammany Hall swindlers on the other, can certainly have no other excuse than the bargain and sale of the votes of the people. Yes, by the meanest of tricks, great magnanimity, even patriotism, is now conceded to the leaders of the corrupt Tammany Hall gang, only because they furnish the means out of the moneys stolen from the city to carry on this, your good work? What good can come of such a reform movement? What will become of our country if such corrupt bargaining should carry the day? These questions the voters of the United States will answer on election day by the triumphant election of the regular Republican candidates. Having always been a member of the Republican party, it is impossible for me to act with you any longer; for truth crushed down will rise again, and therefore, abhorring the shameful coalition with the Tammany Hall Democrats, I return again to the true Republican party, and shall exercise the first and most holy duty of every citizen—that of voting—by casting my ballot on election day for the regular Republican ticket, and let our watchword be victory—victory of the whole Republican ticket, for the success of which I shall hereafter bend all energies.

JACOB C. HOFFMAN.

A FORTY-ACRE AND A MULE STORY.—A Virginia correspondent of the New York *Commercial Advertiser* tells the following story.

At the close of the war there was a general impression among the negroes that the estates of their masters were to be cut up and divided among the ex-slaves; every African mother was to have forty acres of land and a mule. The story is told in a neighboring county that on one occasion a Yankee, out at elbows, strolling along in search of a supper, met a negro to whom he stated that he was sent by Government to "measure off the allotments." Delighted to hear the good news, the darkey said "You is de gemman, sah, dat we's been lookin' for dis long time." The Yankee reminded the "nigger" that the Government fee was $10, and having got all the greenbacks the poor fellow had "on account," he promised to call again for the balance. At the nigger's request he wrote a "receipt," and the following is a copy of the document:

"As Moses lifted up the Serpent in the Wilderness, so have I lifted Five Dollars and Ten Cents from Uncle Tom. JACK STRAW."

Mr. Straw never paid another visit to Uncle Tom, and the forty acres and the mule went up. Wretches who could thus swindle the poor colored people deserve justice on the Jedburgh plan—"Hang 'em first and try 'em afterward."

ST. LOUIS has the latest sensation in the way of lawsuits. Newhouse & Co. own a stone quarry near the city. Last spring Thomas Shulte, while getting out stone in this quarry, received injuries which resulted in his death. He left a blooming young widow, who soon doffed her weeds and became the living wife of Henry Kuler. Henry and his widow wife now sue Newhouse & Co. for $5,000 damages on account of the death of Shulte.

NATIONAL REPUBLICAN PLATFORM

ADOPTED BY THE REPUBLICAN PARTY, IN CONVENTION AT PHILADELPHIA, JUNE 6, 1872.

The Republican Party of the United States assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872 again declares its faith, appeals to its history, and announces its position upon the questions before the country

1. During the eleven years of its ascendancy it has accepted with grand courage the solemn duties of the time, has suppressed a gigantic rebellion, emancipated four millions of slaves, decreed the equal citizenship of all and established universal suffrage. Exhibiting unparalleled magnanimity, it criminally punished no man for political offenses and has warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It initiated a new policy toward the Indians; the Pacific Railroad and similar vast enterprises have been generously aided and successfully conducted to completion, the public lands have been freely given to actual settlers, immigration has been protected and encouraged, and a full acknowledgment of the rights of naturalized citizens secured from European powers. In the form of National currency, it has provided for the National credit, and sustained it under the most extraordinary burdens. It has negotiated new bonds at lower rates of interest. The revenues have been carefully collected and honestly applied. Despite the annual large reductions from the rate of taxation, the public debt has been reduced during U. S. Grant's Presidency at the rate of $100,000,000 per year. A great financial crisis has been averted, and peace and plenty prevail throughout the land. Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the Nation kept in a high position throughout the world. This glorious record of the past is the party's best pledge for the future, and we believe that the people will not entrust the government to any party or combination of men, composed of those who chiefly have resisted every step in this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and Federal legislation. Neither law nor its administration should admit of any discrimination in respect to citizens by reason of race, creed, color, or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained because they are right, not merely tolerated because they are law, and should be carried out according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured the amendments.

4. The National Government seeks to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the Government are considered rewards for mere party zeal, is fatally demoralizing, and we therefore favor a reform of the system, by a law which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for public position, without practically creating a lifetenure of office.

6. We are opposed to further grants of public lands to corporations and monopolists, and demand that the National domain be set apart for free settlement by the people.

7. The annual revenue, after paying current debts, should furnish a moderate balance for the reduction of the principal of the public debt, and except so much as may be derived from a tax on tobacco and liquors, be raised by duties on importations, which should be adjusted to aid in securing remunerative wages to laborers, and to promote the industries and growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for the country are entitled to the care of a generous and grateful people. We favor such additional legislation as will extend the bounty of the Government to all our soldiers and sailors who were honorably discharged, and who in the time of duty became disabled, without regard to length of service or the cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, once a subject always a subject, having at last, through the efforts of the Republican party, been abandoned, and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations, it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Government, and we urge a continued and careful encouragement and protection to voluntary emigration.

10. The franking privilege ought to be abolished and a way proposed for reductions in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of shaping legislation so as to secure a full protection and ample field for capital, and for labor which creates capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts, in any form or disguise, as a national crime. We witness with pride the reduction of the principal of that debt, and of the rates of interest upon the balance, and confidently expect that our excellent national currency will be perfected by a speedy resumption to specie payment.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, their application for admission to further usefulness is received with satisfaction; and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party proposes to respect all rights reserved by the people to themselves, as carefully as the powers delegated by them to the State and Territorial governments. It disapproves of assorting constitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government.

17. It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship-building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of U. S. Grant have commended him to the heart of the American people, and with him at our head we start to-day on a new march to victory.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES!

Dr. Gibbon's Dispensary.

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco; Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of the complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary one of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Post Office Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER.

Consultations FREE.

Our patients will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. — jy6d4p1
